

About us - class 2i  
at Europe School Falkensee

There are 22 pupils in our class, 17 girls and only 5 boys. The members of our class changed within year 1, but most of us are with us from the beginning. Our class teacher is Mrs Heidtmann. She teaches most of our subjects in English. Only the German lessons take place in German language. This procedure is called „immersive English“. Our class is gifted in music. We play a lot of different instruments like the guitar, the piano, the violin or the recorder. Also we have different hobbies. Some play handball, do gymnastics, judo or belly dancing. We like playing in the water and are happy to learn swimming in the afternoon. Also the boys act in English theatre plays like „Snow White“. The girls are crazy about animals. They like dogs, cats, rabbits, guinea pigs and horses. We also have pets at home. These are dogs, rabbits and guinea pigs. We are very ambitious in school. Therefore we are hard-working in all our subjects. Within the lesson we listen to the teacher. From time to time though we „have to interrupt“ and inform the others about our ideas. During outside breaks we sometimes play together. Most of the time we battle boys against girls in running games like „Catch me“ or „Hide and seek“. All the members of our class try to be helpful pupils. We all enjoy school very much.
