

Hello, everybody,

We are the girls and boys in form 5a – in Germany there are no letters like „MK“ after the number of the form – e.g. for Mrs Monika Krüger, our class teacher. We are just form 5”a”, there are three fifth classes more – b, c and d. But we are the nicest, be sure!

We are 12 girls and 11 boys – all living in Falkensee. Falkensee is a small town near Berlin, our Capital. Falkensee is lovely, everybody is known to everybody, we have small lakes, forest, nice detached and semi-detached houses with gardens and - very often – ponds. You can find a lot of shops here and a really cool cinema. We like to go there, specially in the “unfriendly” months when it’s rainy and wet outside. In summer we have fun in the Falkensee swimming-pool or the Falkensee lakes.

In the centre of Falkensee there is a station, so you can go to Berlin very quickly – for shopping, going to the ice-rink, to the theatre or just looking around and have fun with your family or friends.

We learn at “Europeschool Falkensee”. Our time table is rather full every day, but it’s ok. Our subjects are Maths, German language, P.E., History, Geography, Music, Art, Biology, Religious Education and English.

History is cool – we talk about Egypt and the mummies, but also about old castles and knives. Maths is difficult from time to time - depending on the topic. In German we read books or have to learn how language is structured. We describe things, lost objects or persons to learn articulating the best way. Or we tell stories coming out of our mind. That’s funny!

School starts at 8.00 in the morning. The last lesson ends 14.00, sometimes 14.50 in the afternoon. Most of us are interested in sports, so we do a lot after school: playing football, playing tennis, table tennis, basketball, doing judo Some of the girls are crazy about horses. They ride the horses every week. But also instruments are of interest to us: the piano, the guitar, the trumpet, the French horn, the flute. Sometimes there is no time left for hanging around. After school and sports or learning an instrument we have to do our homework. Unfortunately.

What about you?
