

Class 5d

23 pupils learn in our class. We have been learning together at Europe School in Falkensee for 5 years. Our class teacher is Mrs. Dietrich since the first class. Except from the common learning we decorate our classroom with pleasure. We are glad about working together in the German lessons. In this school year we read together a new volume of "Harry Potter". Preferably we like the sports lessons. We wish we could have many more PE lessons.

Once in each school year we go together on a class trip. Then parents of our class and even a granny comes along with us. Last school year our parents had prepared a night walking tour. Some of us were afraid quite a lot as the ghosts by the haunted wood. This school year we want to go in an Inlineskating Hotel. Everybody is already very much excited on the things that could happen.
