

This is us! - class 6c at Europe School Falkensee

There are 19 pupils in our class, 11 boys and 8 girls. The members of our class changed through the years, but some are with us since year 1. Our class teacher is Mrs Löwe (in English Mrs Lion) and our English teacher is Mrs Heidtmann.

We are interested in music and sports. That is why we play a lot of different instruments like the guitar, the piano, the keyboard or drums. Also we do lots of different sports. Some play soccer, like Finn and Janik, go bowling, play handball, play golf or do judo. We also like swimming. Pascal, for example, exercises in a team for five days a week. Sophie sometimes does boxing.

Our class is also a little crazy. The girls for example are crazy about animals. They like dogs, cats, rabbits, guinea pigs and horses. Sarah, for example, likes riding horses. We also have a variety of pets at home. These are fish, turtles, mice, frogs and birds besides the usual cats, dogs, rabbits and guinea pigs.

We are willing to make progress in school. Therefore we are hard-working in all our subjects and matters in school. Within the lesson we often listen to the teacher. From time to time though we „have to interrupt“ and communicate our ideas. During outside breaks we play together. Most of the time we enjoy running games like „Catch me“ or „Hide and seek“. All the members of our class are helpful pupils. Our teachers are very cool and have a certain kind of humor. So we enjoy school very much. Unfortunately we will leave Europe School next year. But a lot of us will meet again at grammar school.
